U.S. Superstore Sales Analysis

Regional performance, customer contribution, product leaders, and sales trends | 2014-2017

PROJECT OVERVIEW

This project reviews nearly four years of U.S. Superstore transactions to show where revenue is strongest, which customer segments contribute profit, which products and customers lead sales, and how results change over time. The completed workbook includes the original practice sheets, a formula-linked analysis tab, and a finished report dashboard.

TOTAL SALES	TOTAL PROFIT	UNITS SOLD	SALES RECORDS
$2,297,201	$286,397	37,873	9,994

Executive summary

The dataset records $2,297,201 in sales and $286,397 in profit, for a 12.5% overall profit margin. The West is the largest region at $725,458; California is the leading state, and New York City, New York, is the top city-state market.

Consumer customers contribute $134,119, or 46.8% of total profit. Technology leads the three product categories in sales at $836,154. Annual sales rose from $484,247 in 2014 to $733,215 in 2017, while November is the strongest month when all four years are combined.

Scope and method

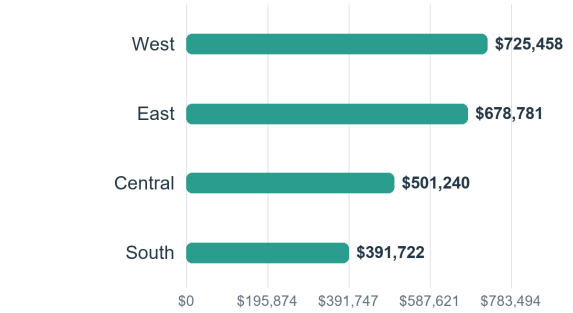

The source sheet contains 9,994 transaction lines spanning 2014-2017, 49 states, 531 distinct city names, 793 customers, and 1,862 distinct product IDs. Revenue and profit are summed from the line-level fields. Product and customer rankings use total sales; segment contribution uses total profit. State and city rankings use sales, with city matched to state so identically named places stay separate. Monthly totals combine the same calendar month across the four years; the workbook also retains year-by-month values and quarterly totals for comparison.

All amounts are in U.S. dollars. The ranking lists describe this supplied dataset snapshot; the workbook keeps the calculations visible on its Analysis tab.

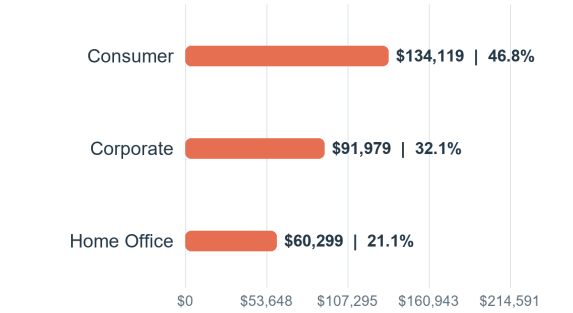

Regional and customer-segment performance

The West and East together account for 61.1% of sales. The Consumer segment produces the largest share of profit, though profit contribution should be read alongside the sales mix and not as a measure of customer count.

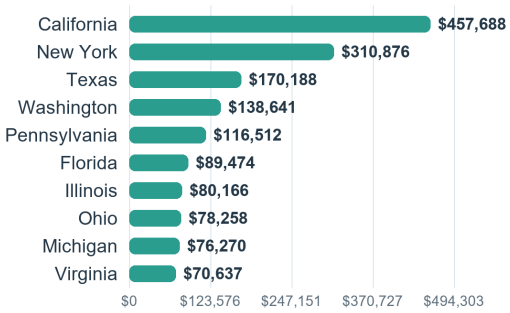

Sales by region (USD)

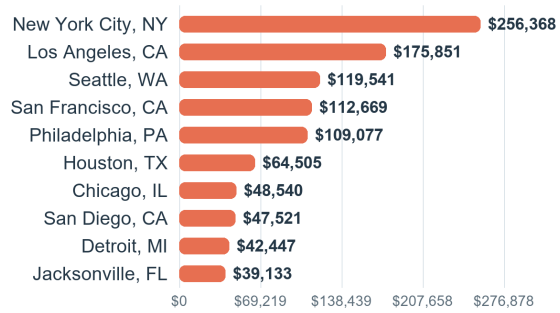

Profit contribution by customer segment (USD)

Top 10 states by sales (USD)

Top 10 city-state markets by sales (USD)

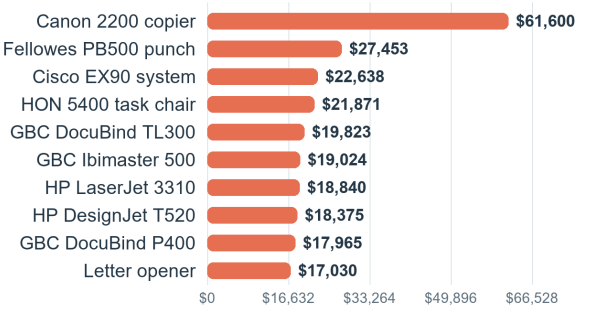

California generates $457,688 in sales, followed by New York at $310,876 and Texas at $170,188. At city level, New York City leads with $256,368, ahead of Los Angeles at $175,851. The state and city views add geographic detail to the regional comparison.

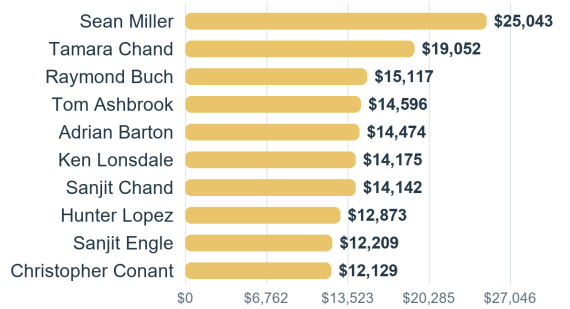

Top revenue drivers: products and customers

The leading product is the Canon imageCLASS 2200 Advanced Copier at $61,600. The top ten products generate 10.6% of total revenue, showing that sales are spread across a broad catalog. Sean Miller leads customer sales at $25,043; the top ten customers together account for 6.7% of revenue.

#	Product	Sales	#	Customer	Sales
1	Canon imageCLASS 2200 Advanced Copier	$61,600	1	Sean Miller (SM-20320)	$25,043
2	Fellowes PB500 Electric Punch Plastic Comb Binding Machine with Manual Bind	$27,453	2	Tamara Chand (TC-20980)	$19,052
3	Cisco TelePresence System EX90 Videoconferencing Unit	$22,638	3	Raymond Buch (RB-19360)	$15,117
4	HON 5400 Series Task Chairs for Big and Tall	$21,871	4	Tom Ashbrook (TA-21385)	$14,596
5	GBC DocuBind TL300 Electric Binding System	$19,823	5	Adrian Barton (AB-10105)	$14,474
6	GBC Ibimaster 500 Manual ProClick Binding System	$19,024	6	Ken Lonsdale (KL-16645)	$14,175
7	Hewlett Packard LaserJet 3310 Copier	$18,840	7	Sanjit Chand (SC-20095)	$14,142
8	HP Designjet T520 Inkjet Large Format Printer - 24" Color	$18,375	8	Hunter Lopez (HL-15040)	$12,873
9	GBC DocuBind P400 Electric Binding System	$17,965	9	Sanjit Engle (SE-20110)	$12,209
10	High Speed Automatic Electric Letter Opener	$17,030	10	Christopher Conant (CC-12370)	$12,129

Product bars use concise display labels for readability; full product names and IDs are retained in the workbook Analysis tab.

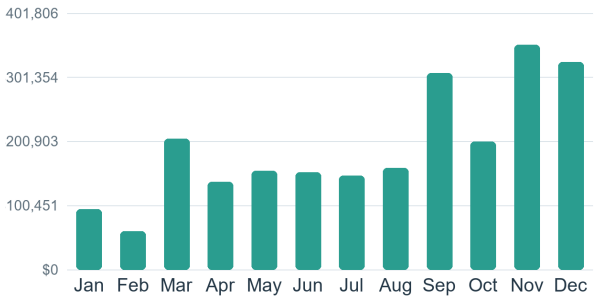

Sales trends over time

Sales softened slightly in 2015, then grew in each of the next two years. Fourth-quarter sales were the strongest quarter in every year, with 2017 Q4 reaching $280,054. The monthly chart sums each calendar month across 2014-2017; November leads at $352,461, followed by December at $325,294 and September at $307,650. February is the lowest month at $59,751.

Annual sales trend (USD)

Monthly sales, all four years combined (USD)

Quarterly sales (USD)

Year	Q1	Q2	Q3	Q4
2014	$74,448	$86,539	$143,633	$179,628
2015	$68,852	$89,124	$130,260	$182,297
2016	$93,237	$136,082	$143,787	$236,099
2017	$123,145	$133,764	$196,252	$280,054

What to take forward

• Use the regional, state, and city views to focus follow-up on the West and largest markets, while retaining visibility on the smaller South region.

• Review profit alongside sales before using product and customer leaders to shape promotions; the rankings answer revenue questions and do not imply the highest-selling items are the most profitable.

• Plan for the recurring late-year lift shown in Q4 and November-December, and compare monthly values by year in the workbook before making staffing or inventory decisions.

Project coverage

Requested analysis	Status
Sales by region	Included
Profit contribution by customer segment	Included
Top 10 products by sales	Included
Top 10 customers by sales	Included
Sales trend by year	Included
Sales volume by month	Included; month totals combined across 2014-2017
